SIEMENS

Data sheet

6GK5602-0BA10-2AA3

product type designation

S602

*********** spare part ******** SCALANCE S602 module for protection of devices and networks in automation technology and for protection of industrial communication with firewall; further functions: address conversion (NAT/NAPT), DHCP server, syslog, symbol. names for IP addresses, PPPoE, DYNDNS, SNMP (V1+V3), global firewall rules.

transfer rate	
transfer rate	10 Mbit/s, 100 Mbit/s, 1000 Mbit/s
interfaces	
number of electrical/optical connections / for network components or terminal equipment / maximum	2
number of electrical connections	
 for internal network 	1
 for external network 	1
• for DMZ	0
 for signaling contact 	1
for power supply	1
for redundant voltage supply	1
type of electrical connection	
 for internal network 	RJ45 port
 for external network 	RJ45 port
 for signaling contact 	2-pole terminal block
for power supply	4-pole terminal block
design of the removable storage / C-PLUG	Yes
signal inputs/outputs	
operating voltage / of the signaling contacts / at DC / rated value	24 V
operational current / of the signaling contacts / at DC / maximum	0.1 A
supply voltage, current consumption, power loss	
type of voltage / 1 / of the supply voltage	DC
supply voltage / 1 / rated value	24 V
power loss [W] / 1 / rated value	6.72 W
supply voltage / 1 / rated value	19.2 28.8 V
consumed current	
• 1 / maximum	0.5 A
product component / 1 / fusing at power supply input	Yes
fuse protection type / 1 / at input for supply voltage	Non-replaceable melting fuse (F 3 A / 32 V)
ambient conditions	
ambient temperature	
during operation	-40 +60 °C
during storage	-40 +80 °C
during transport	-40 +80 °C
relative humidity / at 25 °C / without condensation / during operation / maximum	95 %
protection class IP	IP20
design, dimensions and weights	

design	compact
width	60 mm
height	125 mm
depth	124 mm
net weight	0.8 kg
fastening method	Screw mounting on horizontal and vertical surfaces
fastening method	
 35 mm top hat DIN rail mounting 	Yes
S7-300 rail mounting	Yes
wall mounting	Yes
product features, product functions, product components / gen	eral
product function / DynDNS client	Yes
protocol / is supported / PPPoE	Yes
product functions / management, configuration, engineering	
product function	
symbolic names for IP addresses	Yes
protocol / is supported	165
SNMP v1	Yes
• SNMP v3	Yes
type of configuration	SCT: Security Configuration Tool (included in scope of delivery)
product functions / diagnostics	
product function	N/
• SysLog	Yes
 packet filter log 	Yes
• audit log	Yes
• system log	Yes
product functions / DHCP	
product function	
DHCP server - internal network	Yes
product functions / routing	
product function / static IP routing	Yes
product function / static IP routing product functions / security	Yes
	Yes stateful inspection
product functions / security	
product functions / security firewall version	stateful inspection
firewall version type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection	stateful inspection
product functions / security firewall version type of encryption algorithms / with VPN connection	stateful inspection
firewall version type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection type of hashing algorithms / with VPN connection	stateful inspection
firewall version type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection type of hashing algorithms / with VPN connection number of possible connections / with VPN connection	stateful inspection
firewall version type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection type of hashing algorithms / with VPN connection number of possible connections / with VPN connection number of network nodes / for internal network / with VPN	stateful inspection
firewall version type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection type of hashing algorithms / with VPN connection number of possible connections / with VPN connection number of network nodes / for internal network / with VPN connection	stateful inspection 0
firewall version type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection type of hashing algorithms / with VPN connection type of hashing algorithms / with VPN connection number of possible connections / with VPN connection number of network nodes / for internal network / with VPN connection • note	stateful inspection 0
firewall version type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection type of hashing algorithms / with VPN connection type of hashing algorithms / with VPN connection number of possible connections / with VPN connection number of network nodes / for internal network / with VPN connection • note product function	stateful inspection 0
firewall version type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection type of hashing algorithms / with VPN connection number of possible connections / with VPN connection number of network nodes / for internal network / with VPN connection • note product function • password protection	stateful inspection 0
firewall version type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection type of hashing algorithms / with VPN connection number of possible connections / with VPN connection number of network nodes / for internal network / with VPN connection • note product function • password protection • bandwidth limitation	stateful inspection 0 Yes Yes
firewall version type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection type of hashing algorithms / with VPN connection number of possible connections / with VPN connection number of network nodes / for internal network / with VPN connection • note product function • password protection • bandwidth limitation • NAT/NAPT	stateful inspection 0 Yes Yes
firewall version type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection type of hashing algorithms / with VPN connection number of possible connections / with VPN connection number of network nodes / for internal network / with VPN connection	stateful inspection 0 Yes Yes Yes
firewall version type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection type of hashing algorithms / with VPN connection number of possible connections / with VPN connection number of network nodes / for internal network / with VPN connection	stateful inspection 0 Yes Yes Yes
firewall version type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection type of hashing algorithms / with VPN connection number of possible connections / with VPN connection number of network nodes / for internal network / with VPN connection • note product function • password protection • bandwidth limitation • NAT/NAPT product functions / time product function / pass on time synchronization protocol / is supported • NTP	stateful inspection 0 - Yes Yes Yes Yes
firewall version type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection type of hashing algorithms / with VPN connection number of possible connections / with VPN connection number of network nodes / for internal network / with VPN connection • note product function • password protection • bandwidth limitation • NAT/NAPT product function / pass on time synchronization protocol / is supported • NTP product component / hardware real time clock	stateful inspection 0 - Yes Yes Yes Yes Yes
firewall version type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection type of hashing algorithms / with VPN connection number of possible connections / with VPN connection number of network nodes / for internal network / with VPN connection • note product function • password protection • bandwidth limitation • NAT/NAPT product functions / time product function / pass on time synchronization protocol / is supported • NTP product component / hardware real time clock product feature / hardware real time clock w. battery backup	stateful inspection 0 - Yes Yes Yes Yes Yes
firewall version type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection type of hashing algorithms / with VPN connection number of possible connections / with VPN connection number of network nodes / for internal network / with VPN connection	stateful inspection 0 - Yes Yes Yes Yes Yes
firewall version type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection type of hashing algorithms / with VPN connection number of possible connections / with VPN connection number of network nodes / for internal network / with VPN connection • note product function • password protection • bandwidth limitation • NAT/NAPT product function / pass on time synchronization protocol / is supported • NTP product component / hardware real time clock product feature / hardware real time clock w. battery backup standards, specifications, approvals standard	stateful inspection 0 - Yes Yes Yes Yes Yes Yes Yes Yes
firewall version type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection type of hashing algorithms / with VPN connection number of possible connections / with VPN connection number of network nodes / for internal network / with VPN connection • note product function • password protection • bandwidth limitation • NAT/NAPT product function / pass on time synchronization protocol / is supported • NTP product component / hardware real time clock product feature / hardware real time clock w. battery backup standards, specifications, approvals standard • for FM	stateful inspection 0 Yes Yes Yes Yes Yes Yes Yes Yes Yes Ye
firewall version type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection type of hashing algorithms / with VPN connection number of possible connections / with VPN connection number of network nodes / for internal network / with VPN connection • note product function • password protection • bandwidth limitation • NAT/NAPT product function / pass on time synchronization protocol / is supported • NTP product component / hardware real time clock product feature / hardware real time clock w. battery backup standards, specifications, approvals standard • for FM • for safety / from CSA and UL	stateful inspection 0 Yes Yes Yes Yes Yes Yes Yes Yes Yes Ye
firewall version type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection type of hashing algorithms / with VPN connection number of possible connections / with VPN connection number of network nodes / for internal network / with VPN connection • note product function • password protection • bandwidth limitation • NAT/NAPT product function / pass on time synchronization protocol / is supported • NTP product component / hardware real time clock product feature / hardware real time clock w. battery backup standard • for FM • for safety / from CSA and UL • for emitted interference	stateful inspection 0 Yes Yes Yes Yes Yes Yes Yes Yes Yes Ye
firewall version type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection type of hashing algorithms / with VPN connection number of possible connections / with VPN connection number of network nodes / for internal network / with VPN connection • note product function • password protection • bandwidth limitation • NAT/NAPT product function / pass on time synchronization protocol / is supported • NTP product component / hardware real time clock product feature / hardware real time clock w. battery backup standards, specifications, approvals standard • for FM • for safety / from CSA and UL • for emitted interference • for interference immunity	stateful inspection 0 Yes Yes Yes Yes Yes Yes Yes Yes Yes Ye
firewall version type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection type of hashing algorithms / with VPN connection number of possible connections / with VPN connection number of network nodes / for internal network / with VPN connection • note product function • password protection • bandwidth limitation • NAT/NAPT product function / pass on time synchronization protocol / is supported • NTP product component / hardware real time clock product feature / hardware real time clock w. battery backup standard • for FM • for safety / from CSA and UL • for emitted interference	stateful inspection 0 Yes Yes Yes Yes Yes Yes Yes Yes Yes Ye
firewall version type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection type of hashing algorithms / with VPN connection number of possible connections / with VPN connection number of network nodes / for internal network / with VPN connection	stateful inspection 0 Yes Yes Yes Yes Yes Yes Yes Yes Yes Ye
firewall version type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection type of hashing algorithms / with VPN connection number of possible connections / with VPN connection number of network nodes / for internal network / with VPN connection • note product function • password protection • bandwidth limitation • NAT/NAPT product function / pass on time synchronization protocol / is supported • NTP product component / hardware real time clock product feature / hardware real time clock w. battery backup standards, specifications, approvals standard • for FM • for safety / from CSA and UL • for emitted interference • for interference immunity certificate of suitability • CE marking	stateful inspection 0 - Yes
firewall version type of encryption algorithms / with VPN connection type of authentication procedure / with VPN connection type of hashing algorithms / with VPN connection number of possible connections / with VPN connection number of network nodes / for internal network / with VPN connection	stateful inspection 0 Yes Yes Yes Yes Yes Yes Yes Yes Yes Ye

Marine classification association	
 American Bureau of Shipping Europe Ltd. (ABS) 	No
 French marine classification society (BV) 	Yes
 Det Norske Veritas (DNV) 	No
 Germanische Lloyd (GL) 	No
 Korean Register of Shipping (KRS) 	Yes
 Lloyds Register of Shipping (LRS) 	No
 Nippon Kaiji Kyokai (NK) 	No
 Polski Rejestr Statkow (PRS) 	No
standards, specifications, approvals / hazardous environme	nts
standard / for hazardous zone	EN 60079-0: 2006, EN60079-15: 2005, II 3 G Ex nA IIT, KEMA 07 ATEX 0145 X
accessories	
product extension / optional	
• C-PLUG	Yes

security information	
security information	Siemens provides products and solutions with industrial cybersecurity functions that support the secure operation of plants, systems, machines and networks. In order to protect plants, systems, machines and networks against cyber threats, it is necessary to implement – and continuously maintain – a holistic, state-of-the-art industrial cybersecurity concept. Siemens' products and solutions constitute one element of such a concept. Customers are responsible for preventing unauthorized access to their plants, systems, machines and networks. Such systems, machines and components should only be connected to an enterprise network or the internet if and to the extent such a connection is necessary and only when appropriate security measures (e.g. firewalls and/or network segmentation) are in place. For additional information on industrial cybersecurity measures that may be implemented, please visit www.siemens.com/cybersecurity-industry. Siemens' products and solutions undergo continuous development to make them more secure. Siemens strongly recommends that product updates are applied as soon as they are available and that the latest product versions are used. Use of product versions that are no longer supported, and failure to apply the latest updates may increase customer's exposure to cyber threats. To stay informed about product updates, subscribe to the Siemens Industrial Cybersecurity RSS Feed under https://www.siemens.com/cert. (V4.7)

Approvals / Certificates

General Product Approval
